

**SECRET**

29 June 1960

MEMORANDUM FOR: [REDACTED]

25X1

SUBJECT: Important [REDACTED] Meeting at the Offices of Mr. Ed Green,  
Rochester, New York, on Wednesday, 6 July 1960.

25X1

1. It would be extremely important from PIC's view point if we were to be represented at the subject meeting reported to me this date by [REDACTED] from DPD. As I understand it important considerations will be given to format size and film densities which will result from a 200 l/mm resolution system.

25X1

2. If nothing were to happen from this point forward, we will find ourselves unable to utilize the [REDACTED] products in our present pattern of equipment. The purpose of the meeting at Rochester is to discuss amongst other things the kinds of enlargers or converting devices that will be necessary to make the [REDACTED] product consumable in our center.

25X1

25X1

3. It would appear to me best if [REDACTED] could make this trip to Rochester, but if his scheduling could not so permit, someone like [REDACTED] might be required. I ask for your nomination as to who we will send.
